

AlarmBiller® Pro

The #1 Billing Software for Security Dealers.

AlarmBiller Pro was developed for security companies to help solve the issues that are holding back their business: multiple software systems, data entry on spreadsheets, manual invoicing, etc. AlarmBiller Pro provides companies with the tools they need to streamline operations and increase efficiency.

▶ The Power of Automation

AlarmBiller Pro is the cloud-based software solution that provides small- to medium-sized security dealers with recurring billing, accounting, lead management, and more business services in a single application.

Alarm and security dealers use AlarmBiller Pro to centralize their business operations and maximize their profits. AlarmBiller Pro is easy to use with its robust features and functionality. Create recurring invoices, keep track of appointments, schedule work orders, write proposals, accept payments, generate financial reports, and more.

AlarmBiller Pro includes a professional, branded web portal, allowing your customers to manage their accounts 24 hours a day, including paying invoices, requesting service calls, approving proposals and more.

▶ Enterprise Features, Not Cost

Portable: Access your customer information on any device, anywhere that you have internet connectivity. AlarmBiller Pro is the only 100% web-based management solution developed for security companies.

Scalable: AlarmBiller Pro will grow with you. Whether you're a startup company or have hundreds or thousands of customers, AlarmBiller Pro will allow your business to flourish. With AlarmBiller Pro there are no limits to the number of customers or users.

Affordable: AlarmBiller Pro is priced right; the monthly fee is based on the number of active customers you have. There are no other hidden fees to use AlarmBiller Pro.

► **AlarmBiller Pro has all the great features of its predecessor, AlarmBiller, with four key enhancements to save time and increase efficiency for your business:**

- **Sales Automation:** Streamline your lead tracking and sales processes, so you can manage prospects from first contact through customer creation. This powerful tool creates and manages leads, provides estimates, and generates proposals. When used in association with eForms, you can collect electronic signatures in the field, and contacts are automatically converted to customers when the sale is made.
- **eForms:** Simplify signature collection for your contracts and proposals. Create custom forms, collect signatures in the field, and get paid faster using this feature.
Create custom forms, collect e-signatures in the field, and get paid faster. eForms is the premier turnkey system to help your business centralize and manage any document requiring customer

authorization. This module creates a centralized location for all your forms and contracts, you can even import existing PDF documents. eForms includes automated work flow management so you can follow your form from 'sent' to 'signed.'

- **Time & Attendance:** Keep better track of your work force with this time-tracking application. Employees can clock-in and clock-out, as well as record vacation and personal time. Administrators can make notes on recorded time and easily send the company payroll through an Excel export. Use the geolocation feature to check on your workers in the field. It's an all-in-one solution to the time and attendance issues you contend with the most.
- **Inventory:** Set up, track, and manage your company's tangible goods without leaving your accounting system! Monitor your warehouse(s) and contents, perform audits of in-stock goods, and conveniently create purchase orders to replenish your inventory stock.
