

Manitou® Cloud

Manitou Cloud services is a hosted solution for your alarm monitoring system. The solution drives flexibility enabling connection from anywhere via internet. This relieves customer organizations of the need to manage infrastructure and software; the solution helps customers achieve reduced total cost of ownership (TCO).

REMOVE SERVER STRESS

Our fully hosted solution removes the need to house and manage servers and other on-site infrastructure.

85% of organizations will be moving to the cloud in next three years.¹

COMPLIANCE MADE EASY

Streamline UL compliance with transparent operations and ready access for alarm industry compliance auditors.

63% of organizations consider compliance a top challenge.²

REDUCE STAFFING CHALLENGES

Forget about the need to hire, train, and retain specialized staff for a 24/7 IT operation. We'll take care of it.

It takes 66 days on average to fill an IT role.³

A Fully Hosted Cloud Solution Relieves Organizations of the Need to Manage Infrastructure or Software Updates.

Any Computer. Any Time.

Don't be tied to one PC. The solution allows employees to access Manitou anytime from any computer with a web browser and an internet connection.

Software Licensing Managed

Don't worry about which employee or which machine has a software license. Our fully hosted solution ensures compliance.

Hardware Maintained

Our fully hosted solution means you'll no longer have to worry about unexpected repairs or regularly scheduled maintenance. We handle it all.

Reduced Total Cost of Ownership

Our solution enables significant cost reduction across the business, including hardware, software, and staffing.

Software Updated

Bold's Cloud Services team handles all Manitou software updates anytime they're needed, enabling your IT team to focus on more important tasks.

"As a startup central station, a cloud solution just made sense. Manitou Cloud Services saved us a lot of money in servers and receivers."

Steven Boddy
